DEPARTMENT OF NATIONAL PROPERTIES, MINISTRY OF FINANCE

MoF/DNP/GPPMD-25/2020-2021/ 50

17th July, 2020

**Notification**

**Subject: e-GP System Phase II - Interim Measure for Procurement Activities where the estimates exceed the approved budget**

One of the features in the e-GP System Phase II is the validation in checking the budget balance during the Annual Procurement Plan Creation, tender publication, issuance of Lol and issuance of LoA for all categories of procurement.

However, it has been brought to the notice of the Department of National Properties that Procuring Agencies (PA) whose projects extend beyond one year duration but awarding to be done in the single contract are not able to invite bids in the e-GP system due to the integration of e-GP with MRYB.

Therefore, as an interim measure we would like to request all the e-GP implementing agencies to use **Budget type as "Own Fund"** and clearly specify the details in the brief description of activities for time being until a feasible solution is developed in the e-GP. The **Own Fund** has no integration with MYRB system and users can proceed with the procurement process in e-GP system without hampering the progress of the tendering process.

Please contact 02-336962/77330145/77330146 for any further clarification. We deeply regret any inconvenience caused to the Procuring Agencies.

Kesang Deki  
Director General, DNP
